OUR VISION & MISSION

Our Mission

Nexus Haven's mission is to provide an exceptional and memorable guest experience through personalized service, luxurious accommodations, and refined dining options. We aim to create a sophisticated and relaxing retreat for travelers by offering state-of-the-art facilities and modern amenities, all while maintaining a commitment to sustainability and engaging with the local community. By prioritizing comfort and elegance, we make a significant difference in the travel experience, ensuring every stay supports eco-friendly practices and regional businesses.

Our Vision

Nexus Haven envisions becoming the preeminent choice for discerning travelers seeking a blend of luxury and sustainability. Over the next twenty years, we aspire to expand our footprint, creating havens of elegance and comfort around the globe, while continually elevating our standards of service and environmental stewardship. We aim to be recognized as leaders in the hospitality industry for our innovative approach to sustainable luxury and our unwavering commitment to enriching the communities we serve.

About the Company: General Overview

Nexus Haven is an elegant hotel designed to provide a sophisticated and relaxing retreat for travelers seeking comfort and exceptional service. Operating within the Short term accommodation activities industry and part of the Accommodation and food service activities sector, Nexus Haven offers a range of luxurious accommodations, from spacious suites to cozy rooms, all equipped with modern amenities and stylish decor. The hotel is committed to delivering a memorable guest experience through personalized service, refined dining options, and state-of-the-art facilities. Emphasizing sustainability and local community engagement, Nexus Haven ensures that each stay supports eco-friendly practices and regional businesses. Whether for business or leisure, Nexus Haven stands as a premier destination for comfort and elegance.

The Main Phases: Projects & Impacts

Product Impact on Core Stakeholders

Main Stakeholder	Product Benefits
Guests	<ol style="list-style-type: none"> 1. Guests benefit from high-quality accommodations and personalized service tailored to their specific needs. 2. Access to modern amenities and elegant decor enhances the overall stay experience. 3. Commitment to sustainability provides eco-friendly options and peace of mind during the stay.
Local Community	<ol style="list-style-type: none"> 1. Local businesses benefit through partnerships and sourcing of regional goods and services. 2. Job creation within the local economy supports community growth and development. 3. Eco-friendly initiatives and community engagement enhance the area's environmental and social health.
Employees	<ol style="list-style-type: none"> 1. Employees receive training and development opportunities to enhance their skills and career growth. 2. A supportive work environment fosters job satisfaction and retention. 3. Competitive compensation and benefits packages attract and maintain a high-quality workforce.
Investors	<ol style="list-style-type: none"> 1. Investors can expect steady returns from a well-managed and profitable business model. 2. Diversifying income streams through new profit opportunities mitigates risk and enhances revenue potential. 3. Expansion into international markets offers opportunities for significant growth and higher yields.
Environment	<ol style="list-style-type: none"> 1. Sustainable practices reduce the hotel's carbon footprint and environmental impact. 2. Promoting eco-friendly initiatives encourages environmental responsibility among guests and staff. 3. Active participation in conservation and sustainability projects supports broader environmental goals.
Local Suppliers	<ol style="list-style-type: none"> 1. Increased business opportunities through Nexus Haven's commitment to sourcing local products and services. 2. Long-term partnerships foster financial stability and growth for local suppliers. 3. Promotion of regional products enhances their reputation and market reach.
Business Partners	<ol style="list-style-type: none"> 1. Strategic partnerships with Nexus Haven offer collaborative growth and innovation opportunities. 2. Co-marketing efforts enhance brand visibility and market reach for both parties. 3. Shared resources and expertise lead to improved operational efficiencies and customer satisfaction.

Key Performance Components

Competitive Advantage

Luxurious Accommodations

Nexus Haven offers a range of luxurious accommodations, from spacious suites to cozy rooms, equipped with modern amenities and stylish decor, ensuring a comfortable and sophisticated stay for guests.

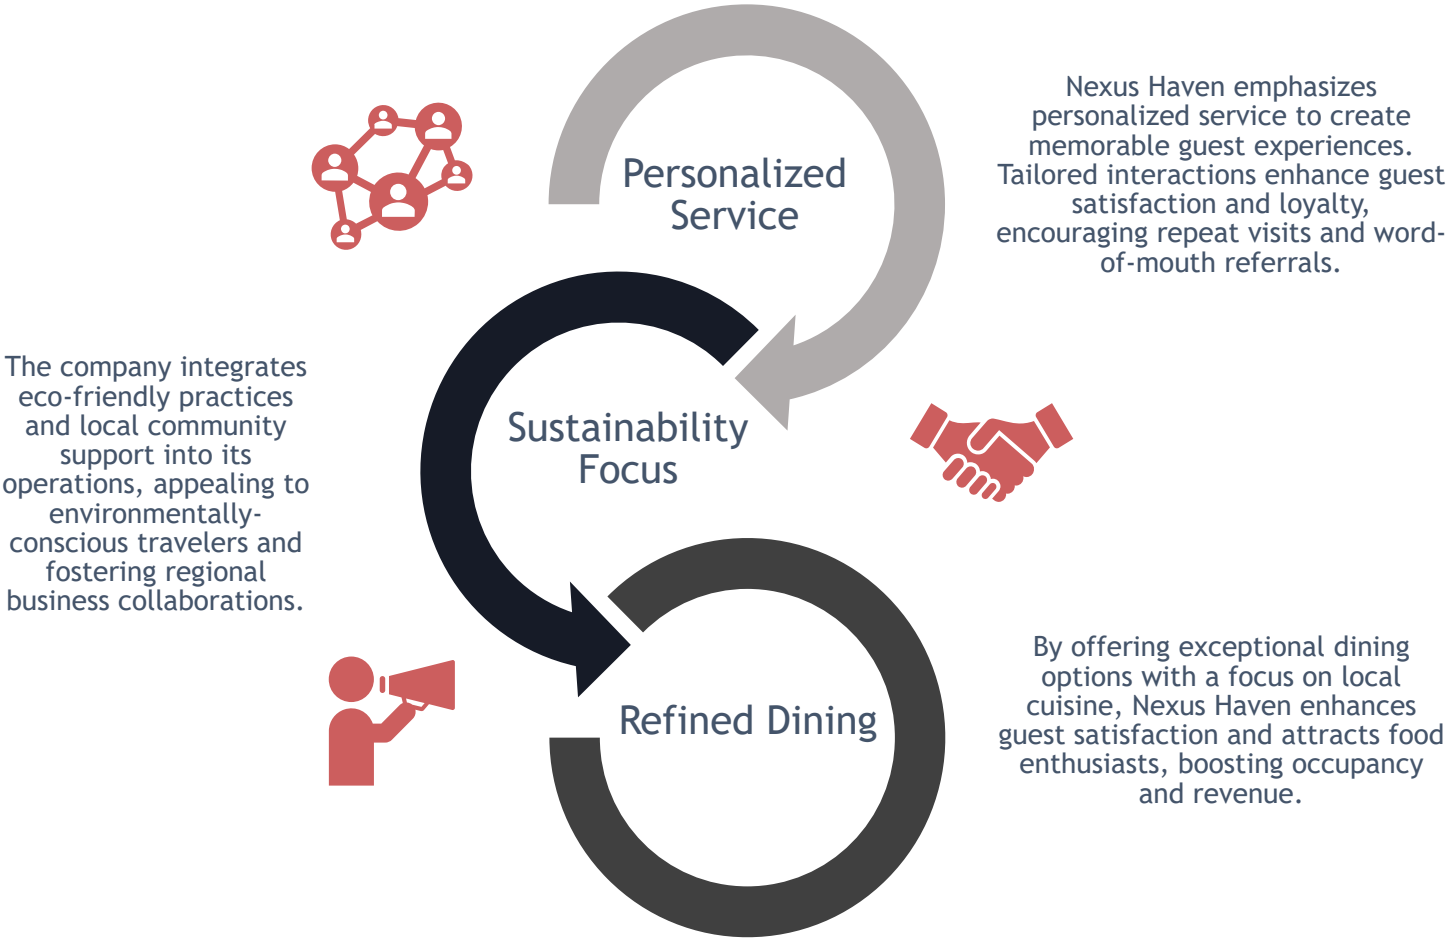

Personalized Service

Nexus Haven focuses on delivering a memorable guest experience through personalized service, catering to individual needs and preferences to ensure that every stay is exceptional and tailored uniquely to each guest.

Sustainability Commitment

Nexus Haven is committed to sustainability and local community engagement, implementing eco-friendly practices and supporting regional businesses, ensuring that each stay contributes positively to the environment and the local economy.

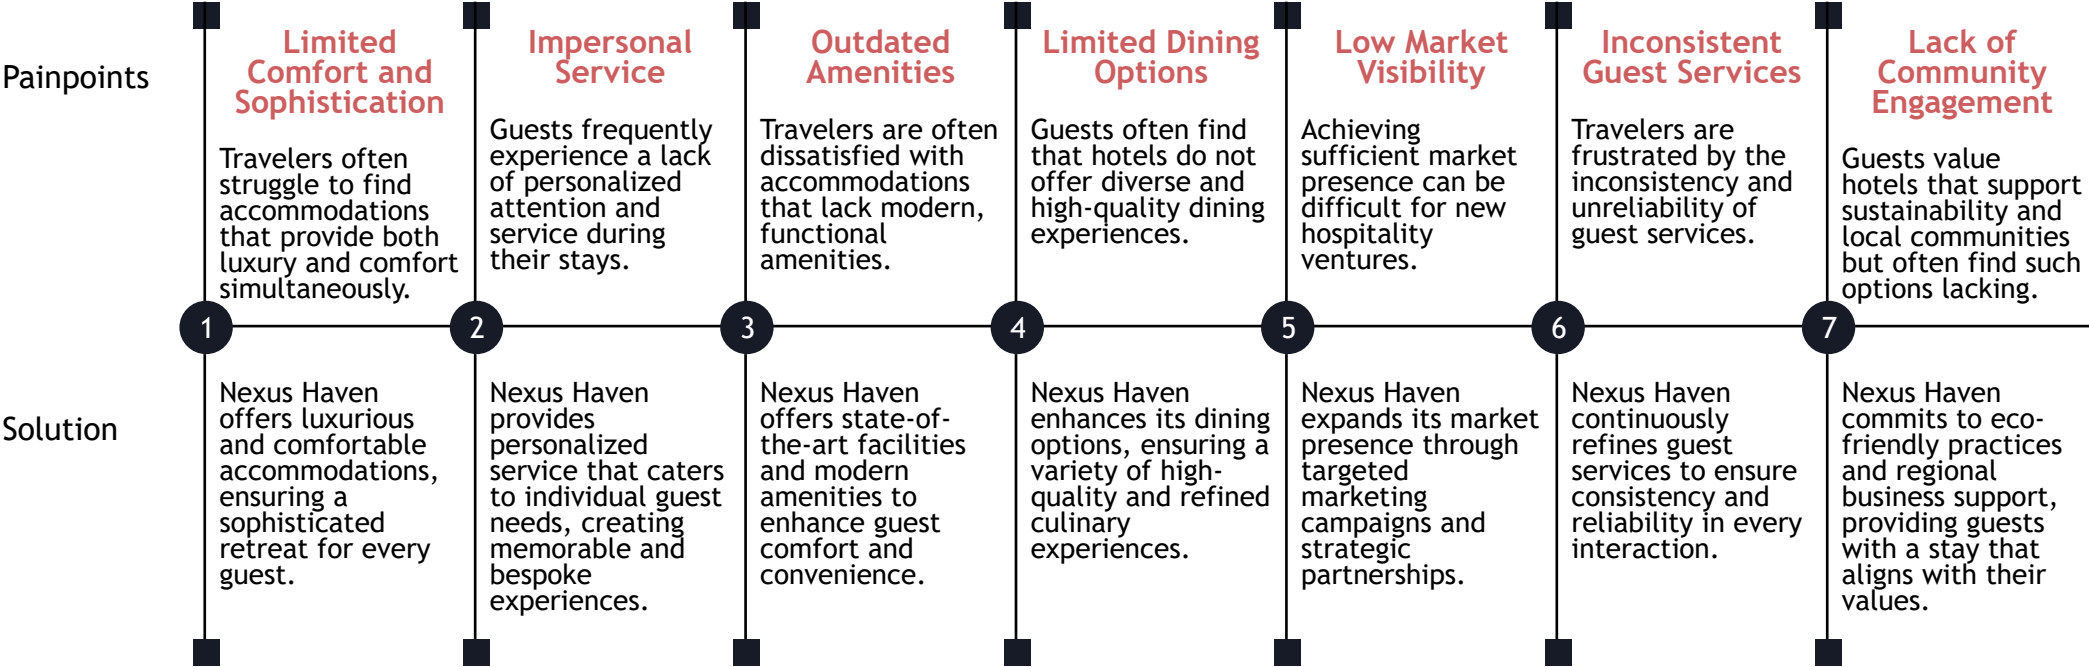

Marketing and Growth Strategy

Target Groups

Industries		Description
I	 Business Travelers	Professionals seeking comfortable and convenient accommodations with amenities that support productive work trips.
II	 Leisure Travelers	Vacationers looking for luxurious and relaxing stays with personalized services and modern amenities.
III	 Event Planners	Coordinators organizing conferences, weddings, or social gatherings in need of upscale venues and comprehensive event services.
IV	 Eco-Conscious Guests	Travelers who prioritize sustainability and prefer accommodations that implement environmentally friendly practices and support local communities.
V	 Wellness Seekers	Individuals looking for wellness packages including spa treatments, fitness facilities, and healthy dining options as part of their stay.
VI	 Corporate Clients	Organizations that require regular accommodations for employees and clients, along with meeting rooms and business facilities.
VII	 International Tourists	Travelers from abroad requiring high-quality accommodations with services tailored to their cultural and practical needs.

Solution from Phase I to Phase IV

Strategic Analysis: SWOT

Strength

Elegant and luxurious accommodations; High-quality personalized service; Strong focus on guest experience; Refined dining options; State-of-the-art facilities.

Weaknesses

High operational costs; Seasonal demand fluctuations; Competition in the luxury hotel market; Dependency on customer reviews; High staff training requirements.

Opportunities

Partnerships with local businesses; Increased focus on eco-tourism; Expansion in emerging markets; Growing trend for personalized travel experiences; Adoption of new technologies for enhanced services.

Threats

Economic downturns affecting travel; Increased competition from alternative accommodations; Changing travel regulations; Technological disruptions in the hospitality industry; Environmental changes impacting operations.

Pestel: Analysis

 P	 E	 S	 T	 E	 L						
Political	7 / 10	Economic	6 / 10	Social	9 / 10	Technological	7 / 10	Environmental	7 / 10	Legal	9 / 10
<p>Regulations: Government regulations on hospitality industry and environmental standards impacting operations.</p> <p>Taxation: Changes in taxation policies affecting profitability and operational costs.</p>	<p>Tourism Trends: Economic factors influencing travel and tourism, affecting hotel occupancy rates.</p> <p>Inflation: Rising costs of goods and services impact pricing strategies and profit margins.</p>	<p>Consumer Preferences: Increasing demand for luxury and eco-friendly accommodations.</p> <p>Health Consciousness: Post-pandemic focus on cleanliness and safety impacting guest expectations.</p>	<p>Booking Platforms: Advancements in online booking technologies impacting customer engagement.</p> <p>Smart Rooms: Integration of smart technology in rooms enhancing guest experience.</p>	<p>Sustainability: Commitment to eco-friendly practices attracting environmentally conscious guests.</p> <p>Local Sourcing: Engagement with regional businesses supporting local economy and reducing carbon footprint.</p>	<p>Labor Laws: Compliance with employment regulations impacting staffing strategies.</p> <p>Health Standards: Adherence to health and safety regulations in accommodations.</p>						

Nexus Haven is poised to thrive by continuously monitoring and adapting to PESTEL factors, ensuring a refined guest experience while upholding sustainability and community engagement.

Scores reflect the relative importance and potential impact of each PESTEL factor on the business

VRIO Framework: Analysis

Does the resource or capability enable the firm to exploit an opportunity or neutralize a threat in the environment?

The elegant setting and personalized service enable Nexus Haven to exploit premium market opportunities and appeal to discerning travelers.

Is the resource or capability controlled by only a few firms or no other firms?

Few firms match the unique combination of elegant design, refined dining, and exceptional guest service offered by Nexus Haven.

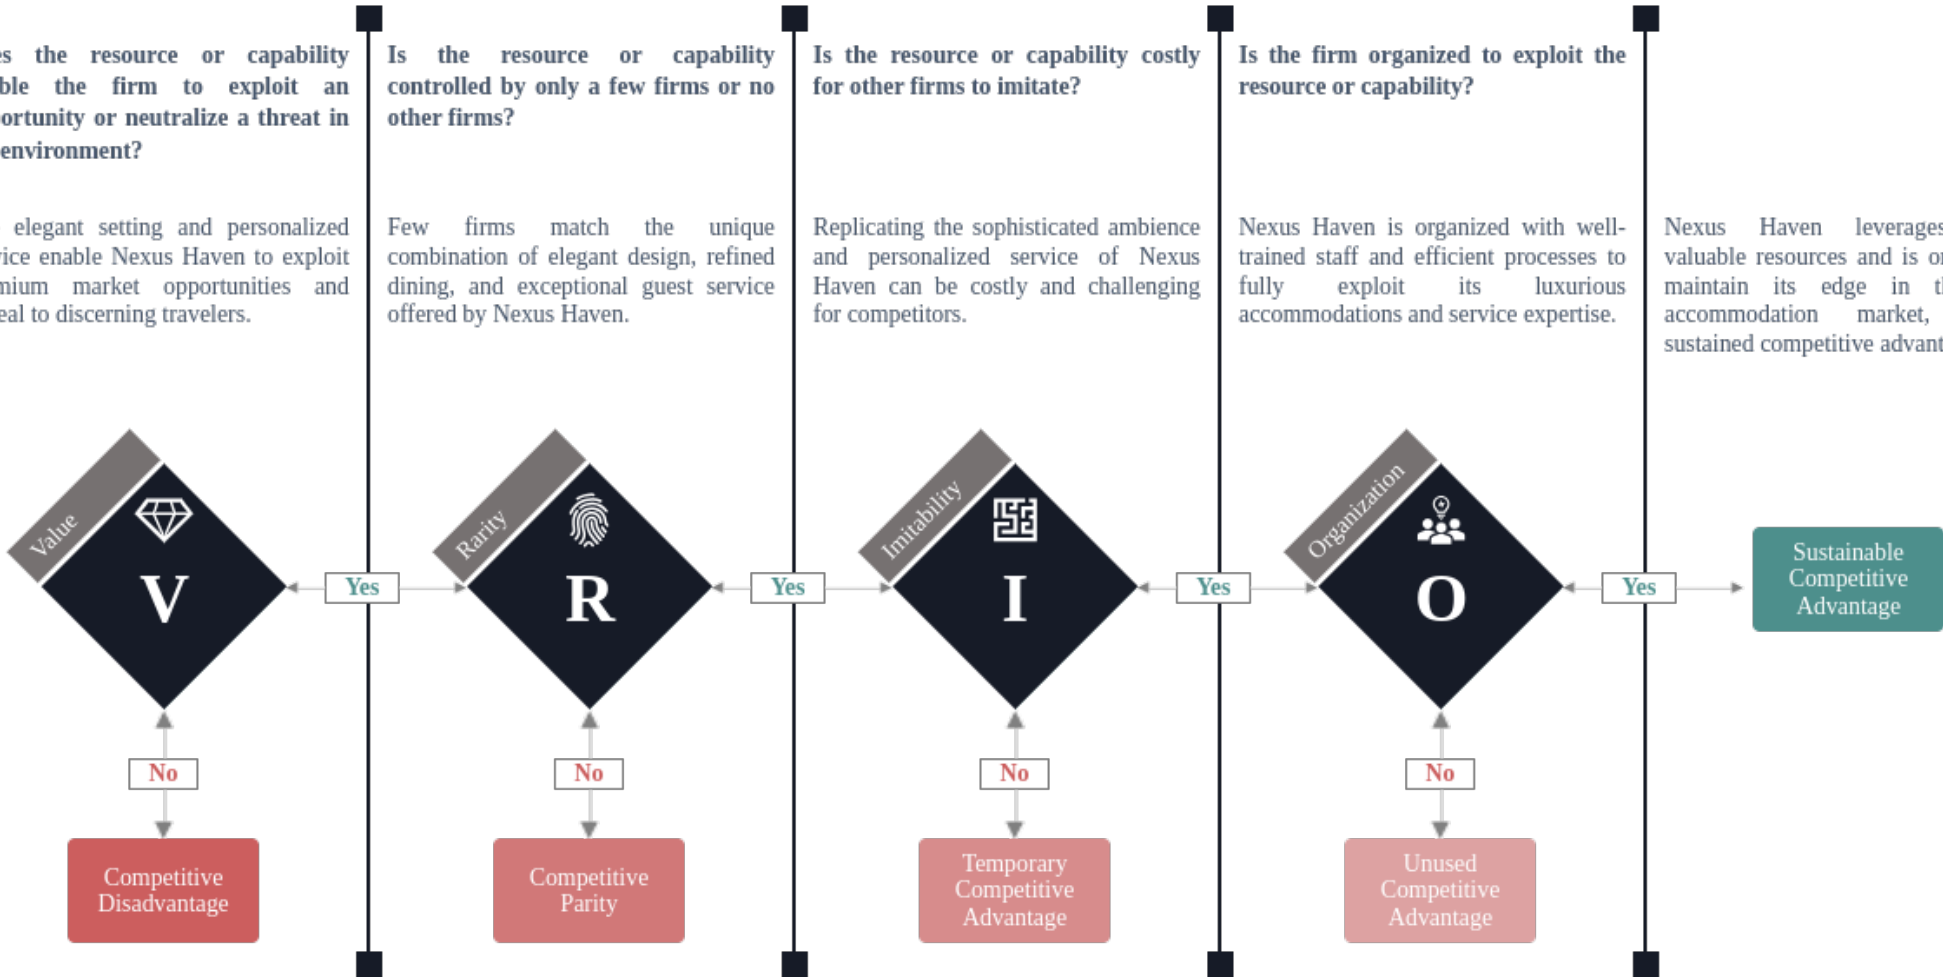

Is the resource or capability costly for other firms to imitate?

Replicating the sophisticated ambience and personalized service of Nexus Haven can be costly and challenging for competitors.

Is the firm organized to exploit the resource or capability?

Nexus Haven is organized with well-trained staff and efficient processes to fully exploit its luxurious accommodations and service expertise.

Nexus Haven leverages unique, valuable resources and is organized to maintain its edge in the luxury accommodation market, ensuring sustained competitive advantage.

Porter's Five Forces: Analysis

Suppliers have moderate power due to availability of alternative suppliers and standardized services.

High as customers can opt for alternative lodging like Airbnb and serviced apartments.

High entry barrier due to significant capital investment and brand reputation development.

High due to the presence of several established competitors with similar offerings.

High due to numerous accommodation alternatives and price sensitivity among business and leisure travelers.

Nexus Haven operates in a highly competitive environment, with significant pressures from substitutes, buyer power, and industry rivalry.

Core Risks & Mitigation Strategies

1. Operation and maintenance risks

#	Risk Type	Area	Mitigation Strategy
1	Maintenance downtime	COO	Implement a proactive maintenance schedule and employ predictive maintenance technologies to minimize downtime.
2	Technology failures	CTO	Implement robust and redundant technology infrastructure to reduce the impact of technology failures.
3	Supply chain disruptions	CPO	Develop strong relationships with multiple suppliers and maintain an emergency inventory to cope with supply chain disruptions.
4	Staffing shortages	CPO	Create a comprehensive recruitment and training program to quickly onboard new employees and retain existing staff.

2. Regulatory and legal risks

#	Risk Type	Area	Mitigation Strategy
1	Health and Safety Regulations Compliance	COO	Conduct regular safety audits and ensure all staff are trained on health and safety protocols.
2	Data Privacy Laws	CIO	Implement rigorous data protection measures and ensure compliance with GDPR and other relevant data privacy regulations.
3	Building and Zoning Codes	CFO	Ensure that all new constructions and renovations comply with local building and zoning regulations.
4	Labor Laws Compliance	CPO	Regularly update HR policies to align with current labor laws and provide ongoing training for management on compliance issues.
5	Environmental Regulations	CSO	Adopt eco-friendly practices and technologies to minimize environmental impact, ensuring compliance with relevant environmental regulations.

3. Strategic/Market Risk

#	Risk Type	Area	Mitigation Strategy
1	Market Competition	CMO	Differentiate through unique guest experiences.
2	Shifting Traveler Preferences	CPO	Continuously update offerings based on market research.
3	Economic Downturn	CFO	Build financial buffers and diversify revenue streams.
4	International Expansion Risks	CRO	Conduct thorough market analysis before entry.
5	Brand Reputation	CEO	Ensure exceptional service and quick issue resolution.

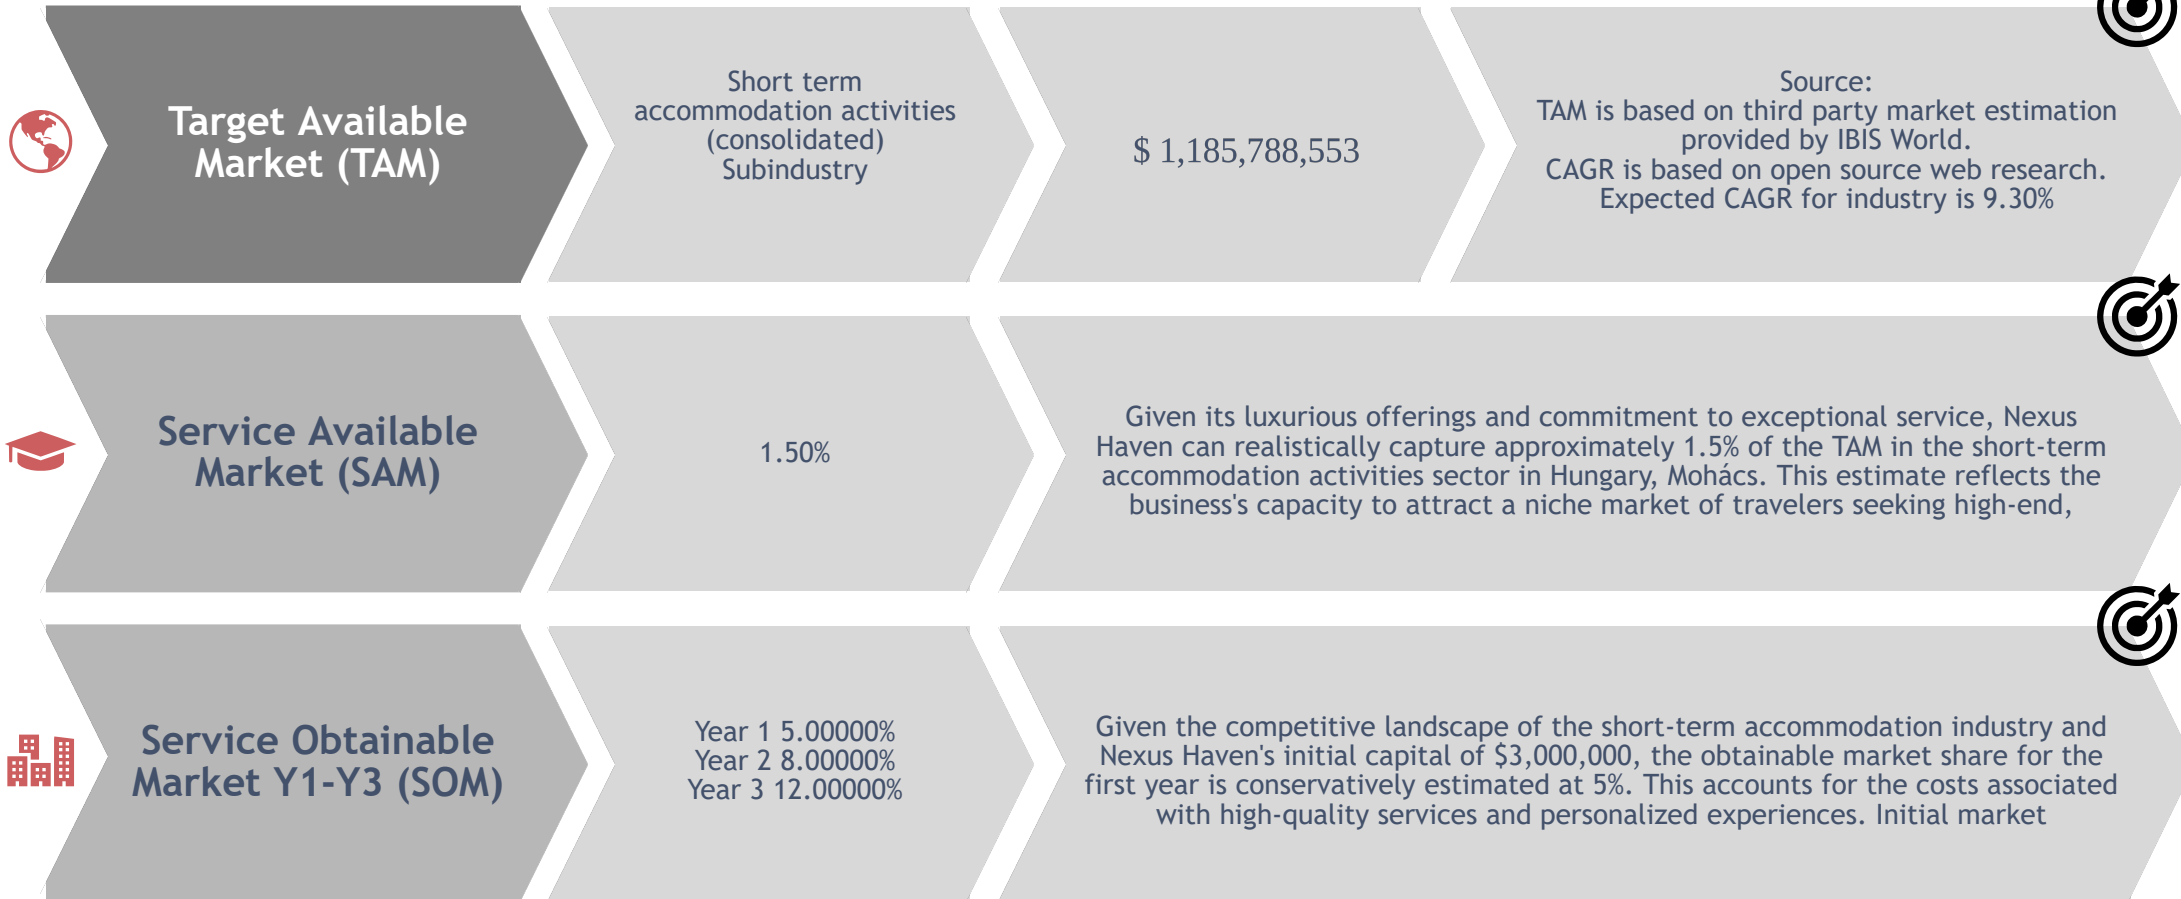

4. Finance risk

#	Risk Type	Area	Mitigation Strategy
1	Cash Flow Shortages	CFO	Maintain strong cash reserves and optimize cash flow management.
2	Over-leverage	CFO	Carefully manage debt levels and maintain a balanced capital structure.
3	Revenue Volatility	CRO	Diversify revenue streams and establish long-term contracts.
4	Foreign Exchange Risk	CFO	Utilize hedging strategies and monitor exchange rate movements.
5	Capital Allocation Missteps	CEO	Conduct thorough ROI analyses and prioritize high-impact investments.

5. Other general risk

#	Risk Type	Area	Mitigation Strategy
1	Reputation Damage	CMO	Implement a proactive public relations strategy
2	Customer Preference Shifts	CPO	Continuously adapt offerings based on customer feedback
3	Supply Chain Disruptions	COO	Diversify supplier base
4	Talent Retention	CSO	Create competitive employee benefits
5	Cybersecurity Threats	CIO	Invest in advanced cybersecurity measures

Market Overview (TAM, SAM and SOM)

Funding Allocation

The funding will be used to finance the CAPEX and cash deficit from Year 1 operations, aiming to expedite the development process. In subsequent years the company plans to sustain operations without requiring major additional capital injection. Table below presents the overview of expected inflows and outflows.

The total investment required is \$ 3,000,000

Y1 Cash Flow Stream(USD)	Inflows	Outflows
Gross Profit	529,336	
Payroll Expenses		106,721
Rent & Utilities		48,914

Revenue Formation Narrative

Nexus Haven projects a robust revenue growth trajectory anchored on its luxurious and personalized offering in the short-term accommodation sector. Our Total Addressable Market (TAM) stands at 1,185,788,553 USD, reflecting the expansive opportunity within Hungary's accommodation and food service activities sector. Given its niche focus on high-end services, Nexus Haven can realistically capture a Serviceable Addressable Market (SAM) of approximately 1.5% of the TAM. This estimate is supported by the hotel's unique value proposition, targeting travelers who prioritize comfort, sustainability, and exceptional service. The estimated Serviceable Obtainable Market (SOM) for the first year is conservatively set at 5%, accounting for initial operational complexities and capital utilization of 3,000,000 USD. In subsequent years, continued emphasis on brand building and customer satisfaction is expected to elevate the SOM to 8% in year 2 and 12% in year 3. The projected revenues align with these growth expectations, with anticipated figures of 889,341.42 USD for year 1, rising to 1,555,280.27 USD by year 2, and reaching 2,549,882 USD in year 3. Nexus Haven's revenue streams are diversified across four main lines of business: Room Rentals (60%), Dining Services (20%), Event Hosting (15%), and Other services (5%). Each line of business is poised to contribute significantly to the overall revenue, ensuring a balanced and sustainable growth model. This strategic focus positions Nexus Haven to thrive in the competitive landscape, delivering refined experiences that foster guest loyalty and drive long-term success.

Required Return on Equity Derivation

Methodology

Weighted Average Cost of Capital is calculated using Capital Asset Pricing Model (CAPM). Since the company is purely equity funded the WACC is equal to its Required Return on Equity R(E). The main research inputs used in calculations are based on studies published by professor at Stern School of Business Aswath Damodaran. Return on Equity R(E) is $R(E) = R(F) + \beta * (ERP)$, where: R(F) is Risk Free Rate. The basis for calculation of R(F) is the average of the yield of USD 30 Year TSY Bond. The horizon. ERP is Mature Market Equity Risk Premium. It incorporates market estimates for Rating-Based Default Spread and Default Spread Multiple (β) is average equity betas of corresponding industries. Despite the company has no debt, the unlevered beta was levered with industry average figures to reflect the long-term D/E ration in the capital structure. Additionally, Illiquidity Risk Premium of 4% is added to the estimated Return on Equity to reflect risk associated with firm being Privately Held vs Publicly Traded Companies.

Additional Assumptions

To calculate the companies Firm Value, its future Free Cash Flow to Equity (FCFE) is discounted using estimated Required Return on Equity.

The 3rd-year projected cash flow is used as a representation of the long-term Free Cash Flow to the Equity (FCFE). This approach may understate the valuation because cash flows are expected to grow more aggressively in the first 10 years, and the growth from years 4 to 10 is not reflected in this calculation. Long-term growth rate of 5% is applied.

After discounting the cashflows and measuring the Firm Value it is adjusted to historical estimate of Start-up firm's survival rate. The allows to incorporate risk of start-ups fails.

Survival of new establishments founded in 1998

	PV Y7 --> Y0				1,424,119			
	NPV (USD)				2,848,292			

Average Survival Rate for 3 Years 50%

Final Valuation \$ 1,424,146

The valuation is conducted using the Discounted Cash Flow (DCF) method. In this method, the projected cash flows for a period of 7 years, along with a terminal value, are discounted at a rate of 18.77 % to determine the Firm Value.

Starting from year 3 onwards, the cash flows are estimated to grow at a rate of 9.30 %, which is consistent with the market Compound Annual Growth Rate (CAGR) trend. Beyond year 7, the cash flows are assumed to grow at a long-term growth rate of 3.50 %.

To account for the inherent risks associated with a start-up venture, the Firm Value is adjusted using the historical survival rate of newly established firms. As indicated by the study conducted by Aswath Damodaran, there was approximately 50% probability of survival for Information sector companies. This adjustment allows to incorporate the risk profile of the business and provide a more comprehensive assessment of its value.

It is important to note that if the company can successfully navigate through its initial three years of operation, it is expected to have a significantly higher likelihood of becoming a going concern. This underscores the importance of demonstrating resilience and establishing a solid foundation during the critical early stages of the business.

Scenario Analysis: Narrative

Scenario analysis explores how external and internal factors influence key assumptions in financial planning. By analyzing potential positive and negative outcomes, company can better anticipate risks and opportunities when evaluating their future cash flows and overall valuation.

KPI	Scenario	Narrative	KPI affected by
Revenue	Positive	This scenario reflects a favorable market environment or a strategic breakthrough, leading to higher projected revenue. It showcases the potential rewards of scaling and innovative approaches.	higher by 15%
	Negative	This scenario accounts for challenging conditions such as economic downturns or market disruptions, forecasting a potential revenue decrease. It emphasizes the importance of adaptability and risk management.	lower by 15%
COGS	Positive	This scenario demonstrates the benefits of operational efficiency or cost-saving strategies, resulting in reduced COGS. It highlights the value of innovation in supply chain and operations.	lower by 20%
	Negative	This scenario addresses rising costs due to external pressures, resulting in an increase in COGS. It underlines the need for proactive cost-control measures.	higher by 20%
Discount Rate (RoE)	Positive	This scenario assumes a decrease in the discount rate (RoE) due to improved market conditions, lower perceived risk, or favorable macroeconomic factors. A lower discount rate increases the present value of future cash flows, enhancing the company's valuation.	lower by 10%
	Negative	This scenario models an increase in the discount rate (RoE) driven by higher market risk, macroeconomic instability, or industry-specific challenges. A higher discount rate reduces the present value of future cash flows, decreasing the company's valuation.	higher by 10%

Scenario Analysis: Results

Scenario analysis explores how external and internal factors influence key assumptions in financial planning. By analyzing potential positive and negative outcomes, company can better anticipate risks and opportunities when evaluating their future cash flows and overall valuation.

Stress Test: Growth Under Pressure

Stress tests provide a comprehensive view of how businesses might perform under extreme conditions, enabling better preparation for the uncertainties of real-world challenges.

Scenario Name	Story	KPIs impact	
Growth Under Pressure	This scenario explores the challenges of managing rapid growth while dealing with operational bottlenecks. A surge in demand and revenue places significant strain on supply chains and internal processes. Despite achieving higher sales volumes, inefficiencies in scaling lead to increased costs and a heightened risk perception, keeping the discount rate elevated. 'Growth Under Pressure' examines how businesses can balance seizing growth opportunities while investing in infrastructure, talent, and systems to support scalability.	Revenue Higher by 20%	COGS Higher by 30%
		OPEX Higher by 40%	Discount Rate unaffected

Results

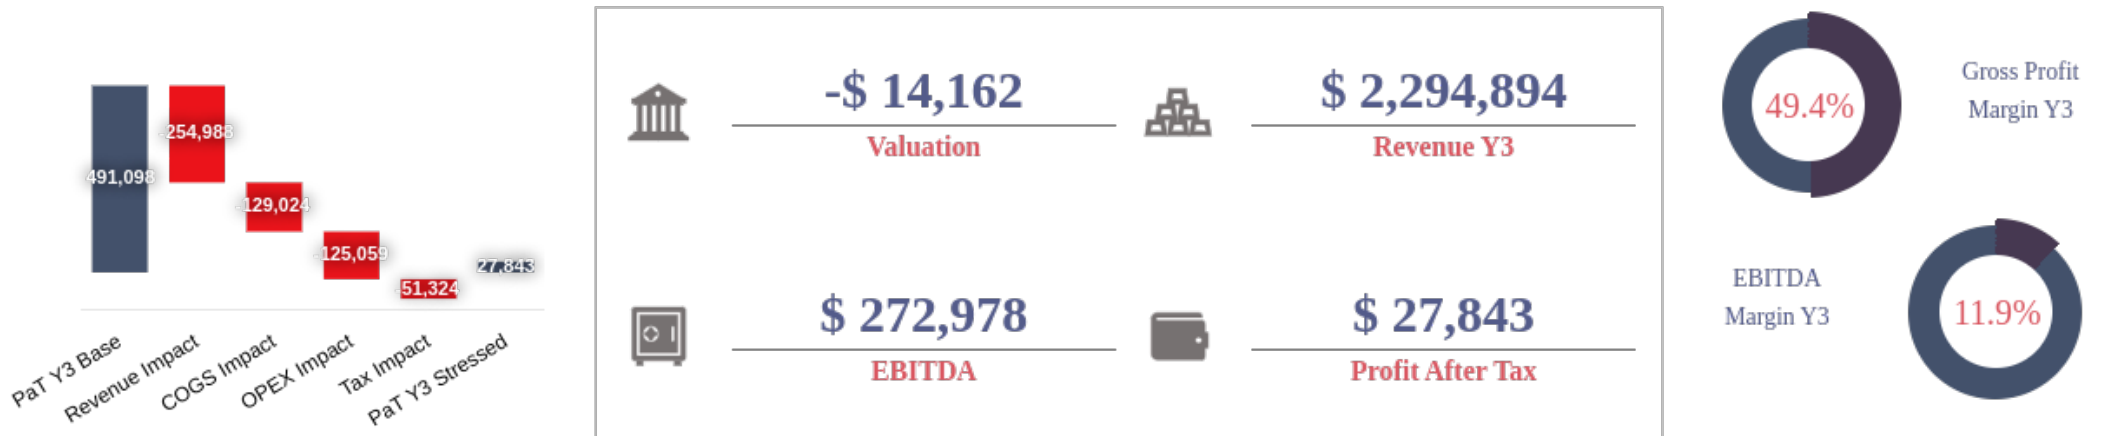

Stress Test: The Perfect Storm

Stress tests provide a comprehensive view of how businesses might perform under extreme conditions, enabling better preparation for the uncertainties of real-world challenges.

Scenario Name	Story	KPIs impact	
The Perfect Storm	This scenario simulates the convergence of adverse market conditions and rising operational challenges. A sharp downturn in market demand coincides with increased costs due to inflation and supply chain disruptions. The combination results in a dual hit to both top-line revenue and operational margins. Additionally, external factors such as economic instability elevate the discount rate, amplifying the pressure on future cash flows. Businesses facing 'The Perfect Storm' must focus on resilience through diversified revenue streams, cost-control measures, and contingency planning.	Revenue Lower by 10%	COGS Higher by 25%
		OPEX Higher by 30%	Discount Rate Higher by 10%

 YTD - Year-to-date

Organisational Structure

CBDO - Chief Business Development Officer
 CEO - Chief Executive Officer
 CPO - Chief Product Officer
 CFO - Chief Financial Officer
 CTO - Chief Technology Officer
 C-level - Chief level
 Eng - Engineer
 Dev - Developer
 HR - Human Resources

Other

Av - Average
 EoP - End of Period
 LE - Legal Entity
 PE - Private Equity
 TOM - Target Operating Model

Disclaimer

The following information and valuation analysis are provided for informational purposes only and do not constitute financial or investment advice. This presentation is based on assumptions, projections, and historical data, which are subject to inherent uncertainties and risks.

Please note that the valuation results presented here are based on the Discounted Cash Flow (DCF) method and various assumptions, including projected cash flows, growth rates, discount rates, and survival rates. These assumptions are subject to change and may not accurately reflect future market conditions or the performance of the business.

The valuation does not guarantee future financial performance or the accuracy of the projections. Actual results may differ materially from those presented in this analysis due to numerous factors, including but not limited to changes in economic conditions, market dynamics, competition, regulatory factors, and unforeseen events.

Investors and stakeholders are advised to conduct their own independent research, seek professional advice, and carefully consider their individual investment objectives, risk tolerance, and financial situation before making any investment decisions. The information provided in this presentation should not be relied upon as the sole basis for making investment decisions.

Furthermore, no representation or warranty, express or implied, is made regarding the accuracy, completeness, reliability, or availability of the information and analysis presented in this presentation. We disclaim any liability for any loss or damage, including but not limited to indirect or consequential loss information provided.

Past performance is not indicative of future results. Any historical financial information included in this presentation is provided for reference purposes only and may not reflect the current financial position or performance of the business.

The valuation presentation is intended solely for the recipient's use and may not be reproduced, redistributed, or disclosed, in whole or in part, without the prior written consent of the company.
