# Painpoints & Solutions

Company & Product

|            |   |  | Solution fro  | m Phase I to   | Phase IV  |   |  |
|------------|---|--|---|--|---|---|--|
| Painpoints | Lack of<br>Personalized<br>Travel Plans<br>Travelers struggle<br>with finding travel<br>services that cater<br>to their individual<br>preferences and<br>requirements.      | Information<br>Overload<br>Clients often face<br>an overwhelming<br>amount of<br>information which<br>makes it difficult<br>to plan an<br>organized trip.                                  | Time-<br>Consuming<br>Planning a trip can<br>be time-intensive,<br>particularly when<br>coordinating<br>between multiple<br>service providers<br>and activities.  | Limited Reach<br>to Target<br>Audience<br>Expanding the<br>customer base<br>through traditional<br>marketing<br>strategies can be<br>slow and<br>inefficient.                      | Service<br>Delivery<br>Inconsistency<br>Ensuring a<br>seamless travel<br>experience can be<br>challenging with<br>multiple service<br>touchpoints.  | Lack of Brand<br>Recognition<br>Gaining visibility<br>and trust among<br>potential clients<br>can be a<br>significant barrier<br>for a new travel<br>agency.          | Scalability<br>Issues<br>Scaling operations<br>without sacrificing<br>service quality can<br>be difficult for<br>growing travel<br>agencies.   |
| Solution   | JourneyGenie will<br>offer highly<br>personalized travel<br>itineraries,<br>ensuring that each<br>trip is tailored to<br>the unique desires<br>and needs of each<br>client. | JourneyGenie's<br>expert advisors<br>curate the most<br>relevant and<br>useful<br>information,<br>streamlining the<br>planning process<br>and providing<br>clear, concise<br>travel plans. | JourneyGenie will<br>simplify and<br>expedite the<br>planning process<br>by consolidating<br>all travel<br>arrangements,<br>accommodations,<br>and activities into<br>a single, easy-to-<br>manage itinerary. | JourneyGenie will<br>implement<br>targeted data-<br>driven marketing<br>strategies to<br>attract a broader<br>range of customers<br>seeking tailor-<br>made travel<br>experiences. | JourneyGenie will<br>partner with<br>reliable service<br>providers and<br>continuously<br>optimize service<br>delivery to provide<br>a consistently<br>high-quality travel<br>experience. | JourneyGenie will<br>establish strategic<br>partnerships and<br>leverage social<br>media marketing<br>to increase brand<br>awareness and<br>establish<br>credibility. | JourneyGenie will<br>enhance<br>operational<br>efficiency and<br>expand its team of<br>specialized travel<br>advisors to manage<br>increasing demand<br>while maintaining<br>exceptional<br>service quality. |

September 2024

Core Features of Phase I - II

### Strategic Analysis: SWOT

# 1 2 3 4 5 6 7 8

Company & Product

Expert travel advisors with extensive industry knowledge. High commitment to personalized customer service. Tailored travel experiences and itineraries. Strong exclusive partnerships with travel providers. Competitive pricing offering value for money.

Weaknesses

උවය Threats

Dependence on partner reliability and consistency. Potential challenges in scaling personalized services. High competition in the travel agency market. Vulnerability to changes in travel trends. Possible operational inefficiencies during peak seasons.

📈 🌧 Opportunities

Growth in experiential and themed travel market. Technological advancements in travel planning tools. Expansion into new geographic markets. Development of exclusive travel packages. Increasing demand for sustainable and ethical travel options.

Disruptions due to global pandemics. Economic downturns impacting travel spending. Increased competition from online travel platforms. Cybersecurity risks affecting customer data. Regulatory changes affecting travel and tourism.

|--|---|--|
| Service Available<br>Market (SAM)        | 1.50%   | JourneyGenie, leveraging its niche in personalized travel experiences and its expert team, can realistically capture up to 1.5% of the TAM in Austria's highly competitive travel agency market. Factors like their bespoke services and exclusive partnerships support this estimate, given their current capital and         |
| Service Obtainable<br>Market Y1-Y3 (SOM) | Year 1 0.50000%<br>Year 2 1.00000%<br>Year 3 1.50000% | JourneyGenie, operating in the highly competitive Austrian travel agency market, will realistically capture 0.5% of the Serviceable Obtainable Market in the first year. This is due to intense competition from established players and limited initial capital. Assuming successful initial market penetration and continued |

### **Funding Allocation**

The funding will be used to finance the CAPEX and cash deficit from Year 1 operations, aiming to expedite the development process. In subsequent years the company plans to sustain operations without requiring major additional capital injection. Table below presents the overview of expected inflows and outflows.

The total investment required is \$ 200,000

| Y1 Cash Flow Streem(USD)    | Inflows | Outlows |
|-----------------------------|---------|---------|
| Gross Profit                | 80,250  |         |
| Payroll Expenses            |         | 19,164  |
| Marketing and Branding      |         | 8,384   |
| Rent & Utilities            |         | 5,989   |

### **Revenue Formation Narrative**

JourneyGenie, a premier travel agency specializing in customized itineraries and expert travel advice, anticipates significant growth in its initial years within Austria's competitive market. Based on our Total Addressable Market (TAM) of 3,194,032,889 USD, we project capturing 1.5% of this market, translating to substantial revenue potential. In the first year, due to intense competition and limited initial capital, we estimate a Serviceable Obtainable Market (SOM) of 0.5%, yielding total revenues of 239,552.467 USD. Leveraging our bespoke services and exclusive partnerships, our market penetration is expected to grow, reaching 1.0% SOM in the second year with revenues climbing to 498,269.131 USD. By the third year, we project a SOM of 1.5%, resulting in total revenues of 777,299.844 USD. Our four main lines of business contribute as follows: Customized Itineraries account for 40% of total revenues, Business Trips for 30%, Special Occasions for 20%, and Other services for 10%. These revenue streams reflect our commitment to delivering tailored travel solutions and exceptional customer service. Through strategic growth and market penetration, JourneyGenie aims to make significant strides within the travel agency industry, turning our ambitious financial projections into reality.

# Cost of Capital: CAPM Inputs

### 1 2 3 4 5 6 7 8

**Business Valuation** 

#### Methodology

Weighted Average Cost of Capital is calculated using Capital Asset Pricing Model (CAPM). Since the company is purely equity funded the WACC is equal to its Required Return on Equity R(E). The main research inputs used in calculations are based on studies published by professor at Stern School of Business Aswath Damodaran. Return on Equity R(E) is  $R(E)=R(F)+\beta * (ERP)$ , where: R(F) is Risk Free Rate. The basis for calculation of R(F) is the average of the yield of USD 30 Year TSY Bond. The horizon. ERP is Mature Market Equity Risk Premium. It incorporates market estimates for Rating-Based Default Spread and Default Spread Multiple ( $\beta$ ) is average equity betas of corresponding industries. Despite the company has no debt, the unlevered beta was levered with industry average figures to reflect the long-term D/E ration in the capital structure. Additionally, Illiquidity Risk Premiumof 4% is added to the estimated Return on Equity to reflect risk associated with firm being Privately Held vs Publicly Traded Companies.

#### Additional Assumptions

To calculate the companies Firm Value, its future Free Cash Flow to Equity (FCFE) is discounted using estimated Required Return on Equity.

The 3rd-year projected cash flow is used as a representation of the long-term Free Cash Flow to the Equity (FCFE). This approach may understate the valuation because cash flows are expected to grow more aggressively in the first 10 years, and the growth from years 4 to 10 is not reflected in this calculation. Long-term growth rate of 5% is applied.

After discounting the cashflows and measuring the Firm Value it is adjusted to historical estimate of Start-up firm's survival rate. The allows to incorporate risk of start-ups fails.

#### Survival of new establishments founded in 1998

### 1 2 3 4 5 6 7 8

**Business Valuation** 

The valuation is conducted using the Discounted Cash Flow (DCF) method. In this method, the projected cash flows for a period of 7 years, along with a terminal value, are discounted at a rate of 11.89 % to determine the Firm Value.

Starting from year 3 onwards, the cash flows are estimated to grow at a rate of 4.00 %, which is consistent with the market Compound Annual Growth Rate (CAGR) trend. Beyond year 7, the cash flows are assumed to grow at a long-term growth rate of 3.50 %.

To account for the inherent risks associated with a start-up venture, the Firm Value is adjusted using the historical survival rate of newly established firms. As indicated by the study conducted by Aswath Damodaran, there was approximately 50% probability of survival for Information sector companies. This adjustment allows to incorporate the risk profile of the business and provide a more comprehensive assessment of its value.

It is important to note that if the company can successfully navigate through its initial three years of operation, it is expected to have a significantly higher likelihood of becoming a going concern. This underscores the importance of demonstrating resilience and establishing a solid foundation during the critical early stages of the business.

### Scenario Analysis: Narrative

Scenario analysis explores how external and internal factors influence key assumptions in financial planning. By analyzing potential positive and negative outcomes, company can better anticipate risks and opportunities when evaluating their future cash flows and overall valuation.

| КРІ        | Scenario | Narrative   | KPI affected by |
|------------|----------|---|-----------------|
| Devenue    | Positive | This scenario reflects a favorable market environment or a strategic breakthrough, leading to higher projected revenue. It showcases the potential rewards of scaling and innovative approaches.  | higher by 15%   |
| Revenue    | Negative | This scenario accounts for challenging conditions such as economic downturns or market disruptions, forecasting a potential revenue decrease. It emphasizes the importance of adaptability and risk management.   | lower by 15%    |
| 60.66      | Positive | This scenario demonstrates the benefits of operational efficiency or cost-saving strategies, resulting in reduced COGS. It highlights the value of innovation in supply chain and operations.   | lower by 20%    |
| COGS       | Negative | This scenario addresses rising costs due to external pressures, resulting in an increase in COGS. It underlines the need for proactive cost-<br>control measures.   | higher by 20%   |
| Discount   | Positive | This scenario assumes a decrease in the discount rate (RoE) due to improved market conditions, lower perceived risk, or favorable macroeconomic factors. A lower discount rate increases the present value of future cash flows, enhancing the company's valuation. | lower by 10%    |
| Rate (RoE) | Negative | This scenario models an increase in the discount rate (RoE) driven by higher market risk, macroeconomic instability, or industry-specific challenges. A higher discount rate reduces the present value of future cash flows, decreasing the company's valuation.    | higher by 10%   |

### Stress Test: Growth Under Pressure

Stress tests provide a comprehensive view of how businesses might perform under extreme conditions, enabling better preparation for the uncertainties of real-world challenges.

| Scenario Name               | Story   | ] | KPIs impact                                       |  |  |
|-----------------------------|---|---|---|--|--|
| Growth<br>Under<br>Pressure | This scenario explores the challenges of managing rapid growth while dealing with operational bottlenecks. A surge in demand and revenue places significant strain on supply chains and internal processes. Despite achieving higher sales volumes, inefficiencies in scaling lead to increased costs and a heightened risk perception, keeping the discount rate elevated. 'Growth Under Pressure' examines how businesses can balance seizing growth opportunities while investing in infrastructure, talent, and systems to support scalability. |   | Revenue<br>Higher by 20%<br>OPEX<br>Higher by 40% | COGS<br>Higher by 30%<br>Discount Rate<br>unaffected |  |

### Stress Test: The Perfect Storm

Stress tests provide a comprehensive view of how businesses might perform under extreme conditions, enabling better preparation for the uncertainties of real-world challenges.

| Scenario Name | Story  | 1 | KPIs impact                    |                                |  |  |
|---------------|--|---|--------------------------------|--------------------------------|--|--|
| The Perfect   | This scenario simulates the convergence of adverse market conditions and rising operational challenges. A sharp downturn in market demand coincides with increased costs due to inflation and supply chain disruptions. The combination results in a dual hit to both top-line revenue and operational margins. Additionally, external factors such as economic instability elevate the discount rate, amplifying the pressure on future |   | <b>Revenue</b><br>Lower by 10% | COGS<br>Higher by 25%          |  |  |
| Storm         | cash flows. Businesses facing 'The Perfect Storm' must focus on resilience through diversified revenue streams, cost-control measures, and contingency planning.   |   | OPEX<br>Higher by 30%          | Discount Rate<br>Higher by 10% |  |  |

This sensitivity analysis evaluates the potential impact of changes in Serviceable Addressable Market (SAM) and Serviceable Obtainable Market (SOM) on key financial metrics. By simulating percentage variations in SAM and SOM, this analysis helps identify how shifts in market assumptions affect revenue, profitability, and overall valuation.

The following information and valuation analysis are provided for informational purposes only and do not constitute financial or investment advice. This presentation is based on assumptions, projections, and historical data, which are subject to inherent uncertainties and risks.

Please note that the valuation results presented here are based on the Discounted Cash Flow (DCF) method and various assumptions, including projected cash flows, growth rates, discount rates, and survival rates. These assumptions are subject to change and may not accurately reflect future market conditions or the performance of the business.

The valuation does not guarantee future financial performance or the accuracy of the projections. Actual results may differ materially from those presented in this analysis due to numerous factors, including but not limited to changes in economic conditions, market dynamics, competition, regulatory factors, and unforeseen events.

Investors and stakeholders are advised to conduct their own independent research, seek professional advice, and carefully consider their individual investment objectives, risk tolerance, and financial situation before making any investment decisions. The information provided in this presentation should not be relied upon as the sole basis for making investment decisions.

Furthermore, no representation or warranty, express or implied, is made regarding the accuracy, completeness, reliability, or availability of the information and analysis presented in this presentation. We disclaim any liability for any loss or damage, including but not limited to indirect or consequential loss information provided.

Past performance is not indicative of future results. Any historical financial information included in this presentation is provided for reference purposes only and may not reflect the current financial position or performance of the business.

The valuation presentation is intended solely for the recipient's use and may not be reproduced, redistributed, or disclosed, in whole or in part, without the prior written consent of the company.

If you have any questions or concerns about this presentation or its contents, please contact our office at info@journeygenie.com or call us at +43 1 23456789.
